COMMERCIAL GROUP CONTEST

COMMERCIAL BEEF

Monday, November 3, 2025, Commercial Beef Groups priced and weighed at Southern Plains Livestock Auction Inc. in Blackwell, OK, at their regular auction time. The return to get weigh-out values will be on Monday, February 2, 2025 auction date.

1. Animals competing in this contest must have a minimum weight of 400 pounds at the initial weigh-in.
2. 2 commercial groups maximum per participant
3. All animals will be tagged at the Southern Plains Livestock Auction prior to group weigh-in with a provided EID tag
4. DNA will be pulled from each animal at nomination and final weigh-in and kept on file
5. The County Nomination Form will be filled out for each exhibitor upon check-in
6. An exhibitor or alternate showman, as allowed by these rules governing alternate showman, must be present at the time of weigh-in and weigh-out for their groups
7. Male cattle must be steers at the time of weigh-in.
8. No mixed-gender groups
9. Stockers should be grazed on winter pasture. Most are turned out on wheat pasture or other small-grain pasture. Some run on winter grass or are given free-choice hay and fed supplemental feed.

The pen will consist of three steers or three heifers. Animals must have been weighed and tagged by **Monday, November 3, 2025, at the Southern Plains Livestock Auction's regular Monday Sale.**

Cattle will have a price per lb. established by 4 independent cattle buyers on the auction sale day. On Monday, February 2, 2026, at completion of the contest, the cattle will be weighed again and another price per lb. established by the same 4 independent cattle buyers on the auction sale day.

A report will be required for **each pen** entered. The report will include a written stocker grazing summary page, a stocker budget with explanation page, average daily gain (ADG), and a photo page. The report will be evaluated and scored. A copy of the report and scoring rubric can be found at the Kay County Cooperative Extension website.

After the contest, each contestant will be interviewed based on their knowledge of their stocker grazing project and overall knowledge of the stocker cattle business. Two or three individuals with expertise in the beef industry will conduct interviews. Interview points will be assigned using a scoring rubric. Interviews will be conducted on Thursday, February 12, 2026, at 5:00 p.m. at the Kay County Farm Bureau Office in Blackwell, OK. FFA or 4-H official dress or business clothing is the attire for interviews.

If a grievance is filed that questions the DNA of any group, the individual who requested the DNA testing will be financially responsible for the initial cost of the processing. If the test result is positive for a change in DNA, the Kay County Free Fair Board will reimburse the individual for the full cost of the testing. If the test result is negative for a change in DNA, the individual who filed the grievance is responsible for the cost of testing.

Any exhibitor that is found to have used any drugs or changed DNA will forfeit all awards and be barred from competing in the contest for 1 year following the offense.

Placings will be established using the following: (for a grand total of 100%)

- 1/3 on value gained. **
- 1/3 on report sheet
- 1/3 on interview score

**Value gained equals value weigh-out less value weigh-in.

Each value gained score will be based on an index value derived from the average of the commercial groups for each contest year.

CARCASS CONTEST

The goal of the fair board is to fill all carcass contest slots to benefit the cooperation received from the processor. Preliminary adjustments to the 4 head per species may be recognized after the nomination date. | 50.0 – 54.9 | 2.1 |
| 55.0 – 59.9 | 2.2 |
| 60.0 – 64.9 | 2.3 |

| 95.0 – 99.9 | 3.0 |

6. Lamb carcass must quality grade Low Choice or better.
7. Lamb carcass must have accepted minimum subcutaneous fat thickness of .1 inches. If a lamb carcass does not meet all the above requirements, it will be ranked after the carcasses that meet all requirements.
8. Rankings will be determined as follows:

Yield = 1.66 + (6.66 X adjusted fat thickness) + (2.55 X estimated % kidney and pelvic fat) – (0.05 X leg conformation #).
 - b) Add .3 to the estimated yield grade of retail cuts for each 1/3rd grade above Low Choice. However, no additional credit will be given beyond Low Prime.

EXAMPLE: A High Choice yield grade 2.5 lamb would be calculated as:

Estimated yield or cuts for YG 2.5 = 46.6%

$$\text{INDEX} = 46.4 + .6 = 47.0$$

Abnormally pale muscles (score 1) quickly turn gray in the retail display case. Dark muscles (score 6) will have a shorter shelf life as they are less acidic. (adapted from the new Swine Grading Standards)
6. Marbling Requirement: Carcasses must possess adequate marbling to obtain a marbling score of 2. Those carcasses with a score of 1 will be disqualified from the contest. (adapted from the new Swine Grading Standards)
7. Once carcasses have met these minimum requirements, they are ranked by their pounds of muscle.

Pounds of Muscle 8.8588
+0.465 X Adjusted Carcass Weight
+3.005 X Loin Eye Area (sq in)
-21.896 X 10th Rib Fat Depth

$$\text{Percent Muscle} = \text{Pounds of Muscle} \div \text{Adjusted Carcass Weight}$$

EXAMPLE:

| | |
|---------------------------------------|-------------|
| Hot carcass weight | 210 lbs. |
| Actual 10 th rib fat depth | 0.7" |
| Actual loin eye area | 8.0 sq. in. |

$$\frac{8.588 + (0.465 \times 223.4) + (3.005 \times 8.0) - (21.896 \times 0.7)}{210 \div 0.94} = 223.4$$
