Issued in furtherance of Cooperative Extension work, acts of May 8 and June 30, 1914, in cooperation with the U.S. Department of Agriculture, Director of Oklahoma Cooperative Extension Service, Oklahoma State University, Stillwater, Oklahoma. This publication is printed and issued by Oklahoma State University as authorized by the Vice President for Agricultural Programs and has been prepared and distributed at a cost of 000 cents per copy.

LINCOLN COUNTY EXTENSION

2020-2021 SUCCESS STORIES

Diabetes Prevention Program

75% of participants completing the program reached their goal weight within the year. 100% reached their goal weight within 13 months.

Parenting and Family Resilience

During a session of Co-Parenting for Resilience, a mother disclosed that her co-parent has a history of being abusive. I was able to point her in the right direction to get the help she needs. While these programs are educational in nature, they also often serve as a resource for Oklahomans and Lincoln County Residents to get assistance they need in other areas of their lives.

Nutrition Education

One “best practice” taught in the Happy Healthy Childcare Homes program is serving meals family-style. There are many benefits for the children when childcare providers do this, but it is also the one that providers most strongly resist. One childcare provider in the program reported a high occurrence of picky eating in her childcare home. She said that once she implemented family-style meals, the children who had previously been picky eaters were eating more and were trying foods they had refused in the past. Not only did the provider get over her apprehension around serving family-style meals, but she reported seeing those positive outcomes in her children.

Financial Literacy/Workforce Development

Reality Check is a financial simulation for high school freshmen that assigns students to an occupation, salary, and family status, then has the students make financial decisions for one hypothetical month. The students make decisions on transportation, housing, entertainment expenses, medical care/coverage and more. After conducting this program at Chandler High School one adult volunteer said “Man, I sure wish I had done something like this when I was a teenager. These kids just learned a lot of things that will help them in their adult lives!”
