

OKLAHOMA AD VALOREM MILL LEVIES, FISCAL YEAR 2024

Assembled by:

**Jean Hinkle
Director**

**Arin Karbs
Senior Administrative Support Specialist**

**Makenna Carter
Undergraduate Worker**

**Department of Agricultural Economics
Oklahoma State University**

EXTENSION

Rural Development

August 2025

ACKNOWLEDGEMENTS

Members of the support staff in the Department of Agricultural Economics are acknowledged for their contributions in assembling this report.

Special recognition goes to Nancy Grantham and the State Auditor & Inspector for providing copies of the ad valorem levy (millage) reports. Finally, thanks to the county treasurers, clerks, and assessors who provided levy sheets and clarifying information.

SOURCE OF INFORMATION

By county: Fiscal Year 2023-2024 Certified Ad Valorem Tax Levies report submitted to the State Auditor and Inspector.
Some county clerks and assessors provided additional detail upon request.

Oklahoma State University, as an equal opportunity employer, complies with all applicable federal and state laws regarding non-discrimination and affirmative action. Oklahoma State University is committed to a policy of equal opportunity for all individuals and does not discriminate based on race, religion, age, sex, color, national origin, marital status, sexual orientation, gender identity/expression, disability, or veteran status with regard to employment, educational programs and activities, and/or admissions. OBJECTIVE OF THE REPORT

This is the twenty-fifth time an ad valorem mill levies report has been prepared. This edition lists the fiscal year 2023-2024 ad valorem tax levies within every county in Oklahoma. Ad valorem taxes provide revenues for funding public programs. Thus, this edition is primarily assembled to assist local officials and others interested in the management of public revenues. It also provides useful information for taxpayers and those studying public fiscal policy.

Some simple statistics were derived such as the mean levy for a county, the mean levy for the State of Oklahoma, and the percent share of the levy to each taxing unit. These statistical derivations are not intended to be used as representative statistics for deriving the tax burden of the average taxpayer. Their primary purpose is to approximate the distribution of ad valorem tax among the various taxing entities.

DESCRIPTION OF THE REPORT

Organization of Tables by School District

This report provides a table of ad valorem tax levies for each county. Within a table, the rows are arranged by school district, and the columns are by tax unit. For example, the county general fund is a tax unit. Each row is summed to give the total ad valorem tax millage that is levied on the taxable property within the school district. The column headings are explained on pages 10 and 11.

A unique combination of codes is used to define a school district. A code is included to denote whether or not the school district is a joint school district. In the column entitled "Jt. Co. No.", three zeros are entered if the school district is not a joint school district. In cases of a joint school district, then the county number was entered of the county where the school district headquarters is located.

A code is also included to denote if the row refers to the urban or rural portion of the school district. In some school districts, the total levy for the urban portion is different than in the rural portion. In school districts where this occurs, there are two lines of data with the school district's two code lines differing by the symbol "U" for urban and "R" for rural. Examples of these codes are shown on page 12.

Statistical Summary of Tables

Each table includes a statistical summary for the county. The statistical summary gives the mean levy, the highest total levy, and lowest total levy in the county. The mean county levy is simply the average of the total levies listed for a county. The smallest total levy (minimum) and the largest levy (maximum) for a county were taken directly from the total tax levies reported in the far right-hand column.

Organization of Pie Charts

Each county's table is followed by a county pie chart. The chart shows the relative size of each levy, relative to the total. The percent was found by dividing the total tax levy for each tax unit by the sum of school levies for the county.

State of Oklahoma Summary Statistics

Averages, medians, minimums, and maximums were computed for the State. Table 78 shows these statistics for each tax unit across all seventy-seven counties. The State summary statistics were computed using all positive (non-zero) millage rates across all rows (schools). (The statewide mean was not found by summing the mean levy for each county and dividing the sum by seventy-seven (counties) as was done in the first two editions of this report.)

In addition, for each taxing unit the statewide "count" is given. This is simply the number of rows in Tables 1 - 77 that had a (non-zero) mill levy for a given taxing unit.

EXPLANATION OF THE CODES USED IN THE TABLES

Code	Explanation
Co. No.	County Number—Counties are in alphabetical order and numbered from 1 to 77. The same numbering system used by the Ad Valorem Division of the Oklahoma Tax Commission was used in this report. The counties and respective county numbers are listed on page 13.
Jt. Co. No.	Joint County Number—County number was entered of the county where the headquarters of the joint school district is located. A “000” was entered if not a joint school district. If the “joint county number” is different than the “county number”, then students are commuting to the county with the “joint county number”.
Sch. Dist. Type	School District Type 1. “I” refers to independent school district. 2. “D” refers to dependent school district.
Sch. Dist. No.	School District Number—Number was entered as assigned by the State Department of Education.
Urban/Rural/JC Code	Series of codes to denote urban or rural portion of the school district, and a Career-Tech school or junior college if either are present in the school district. 1. “U” refers to the urban portion of the school district; the portion within an incorporated municipality. 2. “U plus a city number” refers to a city or town in the school district. The incorporated cities and towns within the county were placed in alphabetical order and numbered. 3. “R” refers to the rural portion of the school district. 4. “R plus a city number” refers to the rural portion that abuts a city and is zoned by the city. The city number was assigned. 5. No “U” or “R” denotes the total levy is the same in the urban and rural portions of the school district. 6. “V plus number” refers to the Career-Tech school number. The number was entered as assigned by the State Board of Career and Technology Education. 7. Initials were entered of the junior college located in the school district. The name of the junior college is given at the bottom of the table.
City/Town	Name of the city or town. The city or town name is preceded by city or town number.
School District Name	Name of the school district as assigned by the State Board of Education.
Co. Gen. Fund	County general fund levy.

Code	Explanation	Code	Explanation
Co. Bld. Fund	County Building Fund levy.	Sch. Snk Fund	School District Sinking Fund levy.
Co. Snk. Fund	County Sinking Fund levy.	CT Gen. Fund	Career-Tech School General Fund levy.
Cty. Snk. Fund	City Sinking Fund levy.	CT Bld. Fund	Career-Tech School Building Fund levy
Cty. Bld. Fund	City Building Fund levy.	CT Snk. Fund	Career-Tech Sinking Fund levy.
Co. Hlt. Dpt.	County Department of Health levy.	JC Gen. Fund	Junior College General Fund levy.
EMS & Fire & MO	Emergency Medical Services and/ or Fire District Operations and Maintenance levy.	JC Snk. Fund	Junior College Sinking Fund levy.
EMS Snk. Fund	Emergency Medical Service District Sinking Fund levy.		
Sld. Wst. & M&O	Solid Waste District Operations and Maintenance levy.		
Sld. Wst. Snk. Fund	Solid Waste District Sinking Fund		
Co. Lib.	County Library		
Co. Ind. Dlp.	County Industrial Development		
Sch. Gen. Fund	School District General Fund levy.		
Sch. Bld. Fund	School District Building Fund levy.		

Examples of the Unique Combination of Codes for Defining a School District within a County

Example 1

Co. No.	Jt. Co. No.	Sch. Dis. Type	Sch. Dis. No.	Urban/Rural/CT/JC Code
001	021	I	3	V4

Adair County.	←			
Joint School district with headquarters in Delaware County.	←			
Independent school district.	←			
School District 3 in Delaware County.	←			
Career-Tech School 4. No urban or rural code; the total levy is the same in the urban and rural portions of the school district.	←			

Example 2

Co. No.	Jt. Co. No.	Sch. Dis. Type	Sch. Dis. No.	Urban/Rural/CT/JC Code
005	005	I	31	U4 V12

Beckham County.	←			
Joint School district with headquarters in Beckham County.	←			
Independent school district.	←			
School District 31 in Beckham County.	←			
“U4” refers to urban city number 4 which is Sayre. V12 refers to Career-Tech School 12.	←			

Example 3

Co. No.	Jt. Co. No.	Sch. Dis. Type	Sch. Dis. No.	Urban/Rural/CT/JC Code
037	000	I	2	R V26

Kingfisher County.	←			
Not a joint school district.	←			
Independent school district.	←			
School District 2 in Kingfisher County.	←			
“R” refers to the rural portion of the school district. V26 refers to Career-Tech School 26.	←
