Describe events (drought, rain, wind, etc.) that may have influenced the development of symptoms.

List chemicals (fungicides, insecticides, herbicides, fertilizer) applied to the crop in the last 30 days.

Please state the size of the crop, percentage (or number) of plants affected, and estimated value of the crop.

Additional information regarding the problem (feel free to write on the back of the form).

Digital images are very useful and should be sent whenever possible. Please send images to jen.olson@okstate.edu or sickplants@okstate.edu
