Frequently Asked Questions

What is the purpose of the Acts?
To control non-point source runoff, prevent adverse effects to Oklahoma waters and preserve water quality for future generations.

What is a NMP?
A Nutrient Management Plan includes, but is not limited to, a legal description of the farm, a description of the waste handling equipment, land application rates, soil and litter analysis data, Best Management Practices and records of all manure transfer.

What are NLWs?
A “Nutrient Limited Watershed” (NLW) is a watershed of a water body with a designated beneficial use which is adversely affected by excess nutrients. The Oklahoma Water Resources Board designates NLWs. Visit poultrywaste.okstate.edu for a map of Oklahoma NLWs.

How often do I take soil & litter samples?
You must obtain a “recent” soil and litter test: Once every year if inside a NLW; otherwise once every 3 years. For information on how to take an accurate sample, please see OSU Factsheets 2207 & 2248, or visit your local OSU Extension Office.

Where do I get the necessary forms and reports?
You may get forms from ODAFF or by visiting poultrywaste.okstate.edu. For assistance contact your local county Extension office.

Oklahoma’s Poultry Waste Management Regulations
A Brief Overview of the Oklahoma Registered Poultry Feeding Operations and Poultry Waste Applicators Acts
Includes:
Frequently Asked Questions
Websites
Contact Information
Regulations

Poultry Producers are required to:
• Register poultry feeding operation annually
• Obtain a Nutrient Management Plan (NMP)
• Keep reports and records
  - application records
  - litter sold or given away
  - soil & litter analysis reports
  - education certificates
• Obtain recent soil and litter tests
• Follow NRCS Waste Utilization Standards
• File annual PFO report to ODAFF
• Allow their operation to be inspected by ODAFF
• Attend 9 hours of initial waste management training
• Attend 2 hours of annual continuing education

Poultry Waste Applicators are required to:
• Obtain a license from ODAFF to apply litter
  - Annual fee of $15 for commercial applicator
  - Fee of $15 every 5 years for private applicator
  - Fee is waived for Producers, license still required
• Obtain recent soil and litter tests
• Keep records of litter applied & where obtained
• Follow NRCS Waste Utilization Standards
• File annual report to ODAFF summarizing records
• Attend 9 hours of initial waste management training
• Attend 2 hours of annual continuing education

Poultry Litter Buyers are required to:
• Obtain recent soil tests for every field receiving litter
• Have only certified applicators spread litter

Who do the Acts affect?

Poultry Producers
• Producing more than 10 tons of poultry waste per year
• Confining birds 45 days or more in any 12 month period
-AND-
Litter Applicators
• Applying more than 10 tons of poultry waste to agricultural lands per year

Who do they involve?
• OK Department of Ag, Food & Forestry (ODAFF)
• OK Cooperative Extension Service
• OK Conservation Commission
• Office of Secretary of the Environment

They are responsible for:
• Monitoring land application of poultry waste
• Monitoring removal from poultry operations
• Ensuring beneficial use of poultry waste
• Providing educational training on waste management

NRCS Waste Utilization Standards*

- Full rate application between 0-120 STP
- Half rate application between 121-300 STP
- >300 NO application

- Full rate:
  = 200 lbs/acre P₂O₅
  = approx. 3 tons/acre broiler litter surface applied

Do NOT apply to:
• Areas within 100 ft. of perennial stream, pond, well or sinkhole unless buffer is present
• Areas within 50 ft. of an intermittent stream unless buffer is present
• Fields with > 15% slope
• Soils frozen, snow covered or water saturated
• Heavily eroded soils
• Flood areas
• Very rocky soils

*Note: See CODE 590 standards for varying slopes and soil depths. Contact NRCS for more details.
