A goal is a statement of what an individual or family wants to achieve. You are more likely to achieve things you want over time if you identify what you are trying to accomplish. A strategy is the means for accomplishing the identified goals.

OSU WF-244, Goal Setting for Farm/Ranch Families http://agweb.okstate.edu/pearl/agecon/tax/wf-244.pdf, is designed to stimulate your thinking about your business and family goals.
